(c) and (d) In the conference of Chief Ministers/Power Ministers held in March, 2001, it was resolved *inter alia* that commercial viability has to be achieved in distribution in 2-3 year through any or all of the following:

Creating Profit Centres with full accountability

Handing over of local distribution to Panchatyats/Local Bodies/ Franchisees/Users Association, Wherever necessary.

Privatisation of distribution

Or any other means.

The Distribution Policy Committee constituted by the Government of India under the Chairmanship of Secretary (Power) in its report, taking into account the recommendations of Kanungo Committee, has recommended, *inter alia,* that:

(i) For privatisation to succeed, support of the State Government in the transition period has to be provided by ensuring that:— Government departments/agencies and municipal bodies are able to pay for their electricity bills and accept the commercial discipline that electricity cannot be supplied without timely payment. Goveraace and law enforcement support is provided for assisting the privatized utilities in bringing about the necessary change in deep-rooted attitudes among their employees as well as customers so that all energy flows are metered and audited and supply discontinued in the absence of timely payment,

(ii) The various stakeholders including the State Government need to acknowledge that privatisation may not result in commercially viable entities immediately and there would be a transition phase.
